

NexaAI Solutions – Company Profile

Company Overview

NexaAI Solutions Pvt. Ltd. is a business-focused artificial intelligence company founded in 2021. The company specializes in building enterprise-ready AI systems for knowledge management, analytics, and automation.

NexaAI primarily serves mid-sized and large organizations across technology, finance, healthcare, and education sectors.

- Founded: 2021
- Headquarters: Bengaluru, India
- Employees: 85+
- Operating Regions: India, Southeast Asia, Europe

Vision

To become a trusted AI partner for organizations by enabling intelligent decision-making through reliable and explainable AI systems.

Mission

Our mission is to simplify access to organizational knowledge, automate repetitive workflows, and help teams operate with speed, clarity, and confidence.

We focus on practical AI adoption rather than experimental research.

Core Values

Our values guide how we build products, treat customers, and work as a team.

- Customer Obsession – Every solution starts with a real business pain point.
- Transparency – Clear communication with customers and within teams.
- Accountability – Ownership of outcomes, not just tasks.
- Security First – Data protection is non-negotiable.
- Continuous Improvement – Iterate, learn, and improve relentlessly.

Founder

Aarav Mehta founded NexaAI after over 10 years of experience in enterprise data platforms and cloud infrastructure.

He previously worked with global consulting firms where he led multiple large-scale digital transformation projects.

Leadership Team

The leadership team brings experience across AI engineering, product management, and business operations.

- Aarav Mehta – CEO & Founder
- Riya Kapoor – CTO (Distributed systems & AI platforms)
- Kunal Sharma – Head of Product
- Neha Verma – Head of Operations & HR
- Siddharth Rao – Head of Sales & Partnerships
